

AV Requirements

Computer, Projectors and Displays

Erin provides her own Apple MacBook Pro 13" Thunderbolt 3 (USB-C). HDMI is also available via an included Apple USB-C Digital AV Multiport Adapter. Erin's entire presentation is presented in PowerPoint from her computer using a 16:9 display ratio at 3840 by 2160. Client must provide a DSAN Perfect Cue system (or equivalent) for Erin's direct slide control.

Microphone

Erin requires a wireless lavalier or countryman microphone connected to a professional audio system capable of room-filling vocal and musical audio.

Audio

Audio can be output from Erin's MacBook Pro via the Thunderbolt 3 / USB-C ports or a standard 3.5mm analogue headphone jack.

AV Testing / Soundcheck

Erin requires an A/V check no fewer than 30 minutes before taking the stage.

Confidence Monitors

Erin strongly prefers at least one confidence monitor, if possible.

No Podium

Erin prefers no podium on stage. If one must be present, it needs to be pushed back so she may walk in front of it unencumbered.
